

Air Circulator

*Engineered for Enhanced Cooling,
Comfort & Energy Efficiency*

About Ecoair

Incorporated in 2011, Ecoair Cooling Systems, is the leading Indian manufacturer of Industrial Evaporative Air Coolers, High-Volume Low-Speed (HVLS) Fans, Exhaust Fans and other Ventilation products.

Ecoair's prestigious customer base is supported globally through dedicated service teams and a strong partner network across multiple projects and locations. Ecoair's UL/CE certified products have a design philosophy focused on safety, quality, customer requirements, reliability and durability. Ecoair products offer the best global technology at the most competitive pricing with assured hassle free service support and spares.

Ecoair cooling and ventilation systems create comfortable environments in Industrial Shopfloors, Warehouses, Railway Stations, Airports, Restaurants, Kitchens many other public places by supplying Cool, Filtered, Fresh, Oxygen rich air controlling humidity and temperature using innovative, customized solutions as per customer requirements.

Our Purpose

We commit to be on the journey of creating simple, economic and eco-friendly functional air solutions for cool and comfortable ambience for that are enhancing productivity. Customer focused and create customized solutions. Our core values are fundamental to our existence and will continue to guide the way we conduct business.

We continuously strive for creating comfort

- Comfortable cooling, drop temperature up to 20°C with high air flow
- Fresh, filtered, cool and oxygen rich air
- Dust control
- Control the humidity and temperature
- Proper air distribution
- Open space cooling
- Exhausting large volumes of air

Ecoair Air Circulator / Grid Fan

Specifications

Ceiling fan with Auto-on function	88*20MM Copper Motor
Voltage - 220-240V	3 ABS Blade
Power - 65W+-5%	3 Speed
CMH - 3200	With remote control

Features & Advantages

- Specially designed for installation in false ceilings
- Fixed into a Std. 2'X2' ceiling grid & extremely easy to install.
- Revolving Louver distributes air in a large area.
- Available with built in LED lamps option.
- Double ball bearing & copper winding for extremely long life & durability.

Best Suited For Application

- Air Conditioned Rooms specifically where Hot pockets arise and Air Conditioning is in-effective
- Reduction in Air Conditioning Load as the Air Flow from the fan creates "Wind Chill Effect" giving improved comfort cooling.
- In low ceiling height application area where conventional ceiling fans cannot be installed.

Standard Applications

Ecoair Product Range

HVLS FANS

EVAPORATIVE AIR COOLING

EXHAUST FANS

YU GO FANS

AIR CIRCULATORS
