

Wall Mounted HVLS Fans

High Air Flow, Vertically Mounted

About Ecoair

Incorporated in 2011, Ecoair Cooling Systems, is the leading Indian manufacturer of Industrial Evaporative Air Coolers, High-Volume Low-Speed (HVLS) Fans, Exhaust Fans and other Ventilation products.

Ecoair's prestigious customer base is supported globally through dedicated service teams and a strong partner network across multiple projects and locations. Ecoair's UL/CE certified products have a design philosophy focused on safety, quality, customer requirements, reliability and durability. Ecoair products offer the best global technology at the most competitive pricing with assured hassle free service support and spares.

Ecoair cooling and ventilation systems create comfortable environments in Industrial Shopfloors, Warehouses, Railway Stations, Airports, Restaurants, Kitchens many other public places by supplying Cool, Filtered, Fresh, Oxygen rich air controlling humidity and temperature using innovative, customized solutions as per customer requirements.

Our Purpose

We commit to be on the journey of creating simple, economic and eco-friendly functional air solutions for cool and comfortable ambience for that are enhancing productivity. Customer focused and create customized solutions. Our core values are fundamental to our existence and will continue to guide the way we conduct business.

We continuously strive for creating comfort

- Comfortable cooling, drop temperature up to 20°C with high air flow
- Fresh, filtered, cool and oxygen rich air
- Dust control
- Control the humidity and temperature
- Proper air distribution
- Open space cooling
- Exhausting large volumes of air

Ecoair FLEX Wall Mounted HVLS Fan

Features & Advantages

- With oscillating head option, wide air flow, covers up to 160 degrees.
- The fan can be easily pivoted for optimum airflow in one direction as well
- Installation and maintenance costs than traditional cooling methods.
- Requires lower investment

Best Suited For Application

- Premises where ceiling mounted HVLS fans not possible too install
- Yu – Go low sound levels makes it suitable where Conventional Wall fans sound levels are not acceptable
- Oscillating features enable large coverage area
- Aerofoil Blades ensure larger Air Flow with extremely low power consumption

Ecoair FLEX Wall Mounted Specification - Model: EcoFlex-5E

SR. NO	PARAMETERS	VALUES
1	Fan Diameter (Ft.)	5
2	Type of fan	Wall Mounted HVLS Fan
3	Fan Adjustment (Vertically)	0-60°
4	Blade Material	Aluminum Alloy 6063 T6
5	Oscillatory Motion	Optional / 0-120°
6	No. of Blades	5
7	Motor Type	Induction Motor
8	Protection Rating	IP 55
9	Power (kW)	1.1
10	Power Inline/ Voltage(V)	3 Phase / 415V / 50 Hz
11	Speed Control	Optional / VFD
12	Speed (RPM)	400 to 450
13	Coverage Area in sq.m	252 sq.m max.
14	Air Volume (CMH)	54,000
15	Weight (Kg)	70
16	Noise level (dB)	<75

Note: Our Fan is compatible with Three Phase supply. * As Per Standard Test Conditions

Standard Applications

Ecoair Product Range

HVLS FANS

EVAPORATIVE AIR COOLING

EXHAUST FANS

YU GO FANS
