

# YU-GO FAN

*Portable, Energy-Efficient Fans for  
Versatile Cooling Requirements*

## About Ecoair

Incorporated in 2011, Ecoair Cooling Systems, is the leading Indian manufacturer of Industrial Evaporative Air Coolers, High-Volume Low-Speed (HVLS) Fans, Exhaust Fans and other Ventilation products.

Ecoair's prestigious customer base is supported globally through dedicated service teams and a strong partner network across multiple projects and locations. Ecoair's UL/CE certified products have a design philosophy focused on safety, quality, customer requirements, reliability and durability. Ecoair products offer the best global technology at the most competitive pricing with assured hassle free service support and spares.

Ecoair cooling and ventilation systems create comfortable environments in Industrial Shopfloors, Warehouses, Railway Stations, Airports, Restaurants, Kitchens many other public places by supplying Cool, Filtered, Fresh, Oxygen rich air controlling humidity and temperature using innovative, customized solutions as per customer requirements.

## Our Purpose

We commit to be on the journey of creating simple, economic and eco-friendly functional air solutions for cool and comfortable ambience for that are enhancing productivity. Customer focused and create customized solutions. Our core values are fundamental to our existence and will continue to guide the way we conduct business.

### We continuously strive for creating comfort

- Comfortable cooling, drop temperature up to 20°C with high air flow
- Fresh, filtered, cool and oxygen rich air
- Dust control
- Control the humidity and temperature
- Proper air distribution
- Open space cooling
- Exhausting large volumes of air

# Ecoair YU-GO Fan

## Features & Advantages

- Specially designed for installation on floor
- Sturdy Body With Wheels for Portability
- Distributes air in a large area horizontally
- Low Noise

## Best Suited For Application

- Large Factories, Fabrications Shop, Press Shops etc.
- Ship Building Yards, Air Craft Hangars, Railways workshops
- Warehouses, Logistics Centres with High Racks.
- Lawns open party Areas, Terraces, Religious places, Community Centres Etc.

## Technical Specification - 6 & 8 Feet

Sr.No.	Model No.	YU GO 6 FT	YU GO 8 FT
1	Type of fan	Portable	Portable
2	Blade Material	Aluminium Alloy 6063 T6	Aluminium Alloy 6061 T6 Grade
3	No. of Blades	6	5
4	Motor Type	PMSM	Induction motor
5	Protection rating	IP 55	IP 55
6	Power (kW)	0.75	1.5KW/3 & 1 Phase
7	Power line/Voltage(V)	Single Phase / 230V	3 Phase 415V / 1 Phase 230V
8	Drive Type	Intelligent Controller	Intelligent Controller
9	Speed(RPM)	300	206
10	Air Volume (CMH)	75000	1,17,000
11	Weight (kg)	130	150
12	Noise level (db)	<70	<65

## Standard Applications

## Ecoair Product Range

**HVLS FANS**

**EVAPORATIVE AIR COOLING**

**EXHAUST FANS**

**YU GO FANS**

**AIR CIRCULATORS**
